

Lessons learned

- Finding a buggy app was the main challenge;
- Lack of requirements;
- Using too much invalid data in production;
- Keep the bug reporting and test cases steps and results easy to follow;
- Exploratory Testing facilitates learning of functionalities;
- Less is more, simple steps are better to use for writing;
- Time management;
- Nice to work in a team;
- Good communication is needed;
- Each team member should know what role he/she has, task assignment.
